

# Warrior Football Philosophy

---

- **Faith** Practice yours in all that you do.
- **Academics** School work before football.
- **Confidence** Believe in yourself, you must become a person that you like.
- **Prejudice** Race, size, gender, ethnicity are not issues on this team or in life.
- **Unselfishness** Your success is always a credit to others.
- **Adversity** Never, never give up in life or in football.
- **Trust** Player to Player - Player to Coach - Player to Parent.
- **Respect** Opponent - Rules - Officials on field and at school – Truth even when truth hurts.
- **High Goals** “What you believe you can achieve.”
- **Work Ethic** Your success will equal your work commitment.
- **Safety** Football is a dangerous sport and equipment is designed to protect us and our opponents. Respect that fact and remember that cheap shots hurt everybody.
- **Class** Practice it at all times. Honor your opponents, your fans, your team, your school, and your community.
- **Technique** Proper technique and execution make winning programs.
- **Training** It takes full-time, full-year commitment to excel.
- **Humility** Not one of us alone is good enough to beat anybody.
- **Family** Your success is a reflection on your family. Make them proud by good sportsmanship and quality play.
- **Sportsmanship** Our attitude toward our opponents must always make us winners, no matter what the final score.
- **Finish** Improve and achieve through persistence. Finish what we start.
